ENGLISH PARLOR OPERAS,

Founded on "ROVERES" and "OLD SAWS,"

EVERY MONDAY, WEDNESDAY, and FRIDAY

EVERY MONDAY,

EVENING.

This entertainment, altough new to America, dates from an earlier period than the opera livest; in fact, the grand opera, with its necessary chorus, may be said to derive its existence from the Opera Bouffe.
Cardinal Mazatin was the first to introduce the Opera Bouffe from I ally into Vrance; and it was the principal pastime uncer Louis XIV., from the commencement of his reign until the advent of Lulli.

Like Mr. Drayton's operas, the plot generally served to illustrate some well known proverb, sum as "never judge by appearance," "never despair," &c. hence these operates were known at that period under the title of "Proverba."

During the reign of Louis XV., the Countees du Barry selected "Proverba" for "Tableaux vivants" (tence their origin), and the forgue of envy says to show of the Pessity.

"Favoverba" disappeared with the Revontion, and for thirty years lived only in the remembrance of the Ancien Regime, until they were resuscitated by tast distinguished member of the Proverbe dram atiques."

The fact of Marie Antoinette having acted in "proverbs" con-

Prench Academy, Alfred Co Musset, under the name of "Proverbe draw adjone."

The fact of Marie Antoinette having acted in "proverbe" contrary to the wishes of Louis XVI., who bissed her before the satire Court, is ristorical.

The great success of these "Drawing-Room Operas," stimulated Mr. Offenbaco (the most p-polar compare of that kind of music in Paris) to add a small orthestra. He obtained the privilege of playing them in the "Theatre Counte," in Paris. He employed the most occeptated comparers, such as A. Adam, M. Grisar, &c., and revived Mozart's "Impressario," and Rossin's "Pingano felici." It is now the most popular am sement in Paris and is known under the name of "Boufe," and "Parist Oppra" on the Continent of Europe, induced Mr. Drayton to introduce them in London, in which city, as well as in the provinces of Great Britain and Ireland, he, with dis. Drayton take Mis Susanna Lowe), distinguished as the prima denna of the Theatres Royal, Covent Garden, Druy Laise, St., James in London, save, for four years, met with the most flattering success.

Mr. Drayton, in presenting this style of spera to the American public, is encouraged by the hope that its completeness, compactness and elegance will insure both for thin and Mrs. Drayton their support and favor, to men't which all their efforts are directed.

THE AMERICAN EMIGRANT AID AND HOMESTEAD COMPANY, having its headquarters in the City of
New York, has been organized for the sole and definite purpose of collecting information from all parts of the country wherein
desirable lands may be had at low prices, and commending those
lands to the attention and favor of all who may be induced to
purchase and improve them. It has been silently perfecting its
arrangements and correspondence for more than a year part,
until it is now ready to offer to settlers a range for selection em
bracing more than One Shillion Acres of cheap wild Lands, with
some improved Farms mainly in the States of 'Irginia, Fennsylvania, Tennsace and Missouri; and it will soon extend its operations into other States.

To immigrants from Europe, to the energetic young men of our
compactly-settled States and sections, to the hires of mechanics
and isborers who throng our chies and live in constant and reasonable dread that panic or pestilence, war revulation, or some
alteration in the channels of trade, may, at any moment, deprive
them of employment and their families of bread, we say, resolve
now, while you may, to seek a home where such perils are un
hnown.

We mean to sell lands, as well as negotiate for purchasers with
those who have large tracts for sale, in every part of the Uniton
but our attention is more apectally directed to the neighboring
States—Virginta, Kennucky, Tennessee, and Masouri. Vickitia
sepecially proffers at this time remarkable inducements to immi

profusion of the most valuable minerate. Coal, from, Sait, Copper,

The TAGLE LANDS of EAST TENNESSEE present some of the most untiling fields for industry and enterprise on the Continent. The climate is salabrious and healthful. Its soil is adapted to all Agricultural pursuits. Its unimproved Lands are covered with us-fol Timber, or present neutral openings, and Meadows producing nutritious Grass. The Farmer can have his products on shipboard in 30 hours, and can buy his Orocerles. Dry Goods, &c., at home, as chesp as any one in New Edgland. Yet, we can sell him good Lands, with perfect titles, at from one to three dollars per sore.

A word as to the single objection which has kept these lands so long uncultivated, and which now keeeps them in market at a bare fraction of their intrinsic value—that of Slavery.
